Fund Manager Comments

The global economy has slowed marginally but has remained resilient. Inflation is declining to target ranges, despite relatively high services and wage inflation, while goods inflation is below trendline as supply chains are being restored. The interest rate cutting cycle is in full swing, with the Fed cutting 50bps and the EU implementing its second 25bps cut. The looser monetary policy, supported by robust fiscal spend, will support the global economy. Populism, geopolitics, trade wars and high debt levels, together with the downward adjustment in the Chinese economy, remain significant risks to the global economy and financial markets. Gold, the ultimate risk diversifier and store of value continue to reach new all-time highs while the US Dollar has started weakening from its peak levels.

Global property stocks have benefited from the fall in bond yields and the interest rate cutting cycle. Large, liquid, market leading REITs, with strong balance sheets have done the best. In Quarter 3, REITs with secular growth like Senior Housing, Apartment and Datacenter REITs have performed strongly. The portfolio is well positioned by having REITs with strong management and superior balance sheets, supported by secular growth.
